### EDUCATION

#### Computer Engineering, Universidad Rafael Urdaneta

Sep 2016 – Aug 2020

Graduated with Honors with a GPA of 17.77/20

Maracaibo, Venezuela

- Web development (React, NodeJS, HTML5, CSS3, Postgres SQL)
- Mobile development (React Native, Ionic, NodeJS Firebase)

I'm a Computer Engineer focused on the design and development of the Front-End on web, mobile and desktop applications. I have experience using the best practices and latest technologies available. I'm passionate about my work and I'm always looking for an opportunity to work on challenging assignments, problem solving or custom projects.

### PROFESSIONAL EXPERIENCE

#### Freelancer

Jan 2019 – present

Created multiple applications for web, desktop and mobile, some of them are:

Maracaibo, Venezuela

- Memory Game, using ReactJS and CSS animations.
- Administration and Gestion Software, using ReactJS, NodeJS and Postgresql
- AceMate (Tinder style app), using React Native with expo and firebase
- KoroDocs (Components Library for React Native), using React Native with expo
